## TECHNICAL RIDER 2022-2023

### **Technical contact Belgian Quo Band:**

Rik Michels - +32.477.37.82.36. - rikmichels@skynet.be

**Belgian Quo Band travels WITHOUT its own sound-engineer and relies on your professional crew.**

**Please read this technical rider very carefully so that together we can make it a successful performance.**

### **The Band :**

Vocals & Leadguitar: Rik "Rossi" Michels

Vocals & Rythmguitar: : Geert "Parfitt" Callens

Vocals & Bass: Lieven "Bassie" Vandenbroucke

Drums: Wes "Leon" Jaques

### **General:**

We have every confidence in your experience and competence. You are free to prick the inputs in the order you prefer. Of course, this does not matter to us. The input-list further on in this document is purely for your information so that you know what we need. The absolute minimum dimensions for the stage are 6m wide by 4m deep.

### **FOH-sound:**

The sound of Status Quo is pure rock, focus on the guitars is very important! The vocals are IN the mix and not on top. We provide a setlist a few days before the gig with some comments during the setlist. PLEASE READ THIS CAREFULLY, it is very important for the show to run smoothly.

### **Drones (mp3's/intro's):**

We use intro "drones" (mp3s) at about 3 times. In the setlist that will be sent a few days before the concert, we will describe what needs to be done. Please note: test this in advance, these files are very important!

**Monitoring: NO separate monitor engineer**

Everyone works via wedges/classical monitoring.  
These are NOT provided by Belgian Quo Band.
